

The graph illustrates the relationship between the total number of symbols and the testing technique used. The x-axis represents 'Total Symbols' from 0 to 25,000, and the y-axis represents 'Testing Technique' from 0 to 100. The legend identifies seven techniques: SPY (purple dash-dot line with diamond markers), W (blue solid line with circle markers), HadsInt (pink dashed line with triangle markers), Wp (orange dashed line with square markers), Hsi (green dashed line with square markers), SPYH (brown dashed line with diamond markers), and H (red dashed line with plus markers). SPY shows a sharp increase in symbols at low testing counts, while the other techniques show a more gradual increase. Wp and Hsi are clustered together, as are SPYH and H.

Testing Technique	Total Symbols (approx.)
SPY	5000
W	12000
HadsInt	12000
Wp	12000
Hsi	12000
SPYH	21000
H	26000
